As a life coach with a personality as big and jovial as is her zest for life, I was tasked with creating a branding which reflected my client's energy. A big fan of all things with "bling", she asked that I incorporate elements of sparkles, glitter and gold leaf. I chose the swooping upward moving arrow as it reflects movement and positive progress, much as what her coaching brings to her clients' spirits. I also created her website www.kathykingcoaching.com

Coaching for Life-

I think we would all agree that life is hard! Life Coaching is the ear that listens intently without judgment, and the questions that allow you to rethink decisions, refocus priorities, and reconnect with life as you want it to be. It is enthusiastic energy poured into your spirit, encouragement when you need it most, and affirmation that you can move forward with a positive purpose and a joyful spirit.

No matter what your vocation, you are welcome at Kathy King Coaching. Life's obstacles come in all shapes and sizes, and I am prepared to help you meet the challenges. Together we can untangle the knots of life, work through the barriers you are facing, and find the purpose and joy that sometimes seem so elusive.

I've heard it said that it's not the loss of energy or health that makes you old; it's the loss of vision. Regain your focus, sharpen your vision, and move forward to a more abundant life! It is certainly true that the real joy in life is not in arriving, it's in the journey itself! Let us travel the route to your blessings together, one purposeful, positive, productive step at a time.

Renew....

Have you forgotten to renew your subscription to life's magazine? Are you living your days in back issues and rereading the same old stories? No matter how many yearly subscriptions you've stacked away, they can never take the place of new tales and discoveries. Learn to set aside those back issues and look at the shiny new cover of the story and adventures of today.

Life Coaching can help you part with the old news and start to look forward to the journey of now. If you are stuck in the past, it's time to renew yourself and watch the future unfold. It is never too late to rewrite your story! We don't have enough time or energy to relive yesterday, or try to anticipate tomorrow. We do, however, have just what we need to enjoy the gift of this day.

Rediscover yourself and learn to believe in who you are and where you're going. "Now and then it's good to pause in our pursuit of happiness, and just be happy!" Together, we can find the new you!

Refocus-

How long has it been since you've cleaned the lenses of your life-glasses? Do your days seem blurry and all jumbled together? Have your dreams been buried

under weariness and the frantic pace of living? If so, it's time to clean the windows of your spirit and refocus the clarity of your future!

Life Coaching can help you turn your "have to's" into "get to's". How blessed are we to have the gift of this life? When you find yourself saying that you "have to do this" or "have to make that," reframe you thoughts, and realize you "get to do this," and you "get to do that!" Opportunities are everywhere! When you begin to put your life into focus, honesty, openly, and objectively looking at what you see, you will find it easier to move forward into the very life you have been dreaming about.

Refocus your vision and look through sparkling eyes that see the world for what it has to offer! Oliver Wendell Holmes, Jr. said, "The great thing in this world is not so much where we are, but in what direction we are moving." Gain a new perception of life and move forward to a newly defined YOU!

Rejoice in who you are and the music of your life! Be strong and confident, knowing that when all of the dust is washed away, your shiny new life will bring you more hope, greater peace, and a deep sense of joy for the journey ahead.

Life Coaching can help you find your way back to the road that's

Rejoice!

Illustration

I had the privilege of illustrating my client's self-published children's book recounting childhood memories of her relationship with her grand-mother. Here I was challenged to assist my client to extract these very specific and personal images of her family from her memory and then capture and convert these into realistic yet illustrated depictions. I also created her website www.kimberlylutterly.com

Here are various advertisements for clients done within the last two years. The object being to be as creative as possible yet still readable and interesting; this was not always easy. In the above flier, the client provided me only with a Zillow photo of his childhood home, his baby picture and a very short synopsis of his play.
